

Take Control of Your Workers' Compensation

Getting Involved

Don't get left out, take control and become knowledgeable on what goes on with your insurance carrier or TPA. These entities control a portion of your finances and are collecting fees for spending your money.

Carriers and TPA's get a percentage of all processes related to occupational injuries. Medical treatment fees, Utilization review fees, Billing review fees, Nurse Case Management fees, Legal fees, Investigator fees, etc. So what is their incentive to close your claims quickly and efficiently?

Until recently, the system was designed to confuse, complicate and line the industry's pockets at the employers' expense.

Take Control

Occlink is an employer based program providing access and knowledge for key decision making processes. Occlink provides the ability for the employer to be intimately involved in every aspect of the claims process. Occlink has the ability to customize an employers needs and provide knowledge and services in the following areas:

- ✦ Claims Strategies
